- **Conclusion**

Introduction

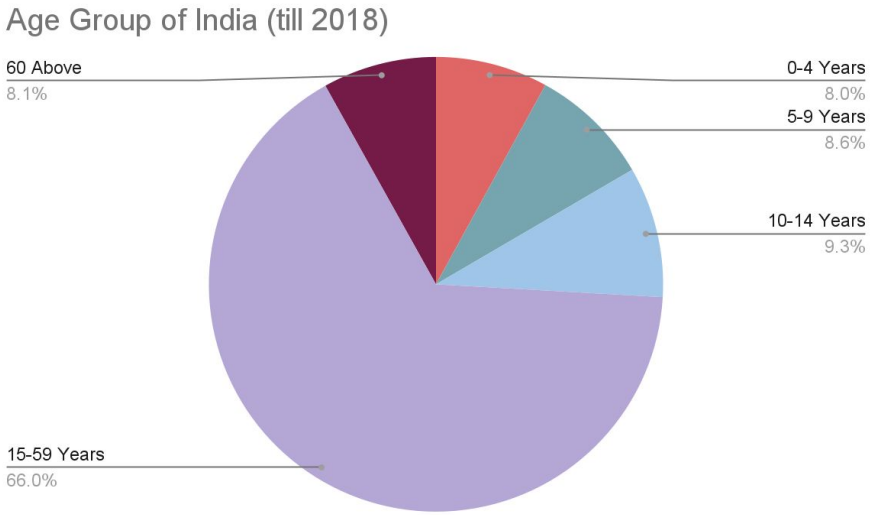
- Buy a Cake is a portal which allows admin in developing counters to advertise and sell their cake. This would permit rural communities to make their wares available to the rest of the world.
- The objective of this project is to create a portal which would allow product information to be updated securely using a mobile device and will allow users to buy cake from the seller.
- In future the internet become whole and soul to the business fields, each and every trades are going to be done through it so this portal may helpful to the local bakers as a business person in this running world.

Objective & Scope

My objective is to create a webpage that will help the local bakers to sell their cakes and make their presence online. This will in turn help them to grow their business. My aim is also to give a platform for the rural women bakers to sell their cakes and make their business grow and make them a business person in this developing and fast moving world.The Cake Shop (TCS) will help the customers to choose from variety of cakes and pastries. It will help the customers to choose the perfect & fresh cakes for perfect occasion. We will also extend the varieties in future and add different kinds of cakes from different culture.

User Research (Target Audience)

- Our target user are from age group 18 to above.
- Our sales will be dependent mainly of occasions such as Birthdays, Marriage Functions, Baby Showers, Ring Ceremony etc.

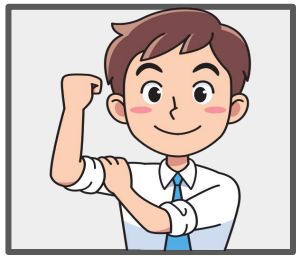


Competitive Analysis

– – –

- Monginis:
  - The site of Monginis is so poor. There are so many things that they need to improve. And we can learn from them that we should also improve in the fields that they are lacking.
- Kabhi B:
  - By doing analysis on Kabib-B website, we can learn many things. Such as Menus, Variety of cakes, presentation, Ordering system, etc.
  - Kabib-B lacks at “Product Description”, which we can improve in our website.

User Persona - 1



Yash

Age:19
Education: BTech CSE
Hometown: Ahmedabad
Occupation: Student

“I am fond of bakery items. But i don’t know cooking”

Goals

- To be good computer engineer
- While working, he eats bakery items and prefer to order online as he is busy working

Frustrations

- Can not order local bakery items online
- Lack of online services
- Lack of delivery services

He likes bakery items and he is fond of eating cakes but he is busy working and studying hard and he cannot go out to buy cakes. So he prefers to order cakes online.

User Persona - 2

Parita

Age: 18
Education: BTech CSE
Hometown: Ahmedabad
Occupation: Student

"I love fresh and homemade cakes but i don't know how to bake"

Goals

- To be computer engineer
- While working, she eats cakes and prefer to order online
- To achieve healthy life

Frustrations

- Can not order bakery items online
- Lack of online services
- Lack of delivery services
- Doesn't know how to cook

She loves chocolate cakes but she doesn't know how to make cake or pastries so see orders the cake online. But due to lack of services in her locality she is not able to order cake online

Technology & Tools

- **Frontend**
  - HTML5
  - CSS3
  - Bootstrap 4
  - MD Bootstrap
- **Backend**
  - Java SE 14
  - JDK 16
  - MySQL Server 8
  - JSP
  - Javascript
  - Apache Tomcat Server 10

Methodology (Modules)

– – –

- **For User:**
  - Homepage
  - Login / Sign-up
  - Main Content
  - Order Confirmation Page
  - Payment Page
- **For Admin:**
  - Dashboard (Add / View / Modify / Delete - Products & Categories)

Conclusion

The motivation behind this project was to study and practice UI/UX ideas. By this project I will actually want to make a decent and solid website which will be the best platform for cake merchants and give a superior stage to order cakes online. The Cake Shop (TCS) will assist the clients with browsing assortment of cakes and baked goods. It will assist the clients with picking the ideal and new cakes for amazing event. We will likewise expand the assortments in future and add various types of cakes from various culture. For vender's side, TCS will be the stage for the dealers to sell their cakes. My goal is to make a site, that is effectively available to everybody. I want to associate each country pastry specialist to a typical stage from where they can sell their cakes and the clients can purchase cakes. Making a connection for clients to get newly prepared cakes. Extent of this venture will be to fill the hole of rustic bread cooks and clients.

THANK YOU
